***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the examiner has considered applicants' amendment filed October 22, 2007. The amendment was effective in overcoming the rejection(s) of record. The prior art fails to teach or recognize the problem associated with consumption of triorganophosphine ligands through the formation of phosphonium ion degradation products. Accordingly, a method of minimizing said degradation products is not taught by the prior art, nor would the claimed method for minimizing said degradation products have been obvious to a person having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne Eyler can be reached on 571-272-0871. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
